In the Government Order read above, Government sanctioned revised rules for the regulation of the water supply in the cities of Bangalore and Mysore, while communications (2) and (3) have reference to certain alterations in those rules proposed by the Municipal Councils of the two cities.

2. After a further consideration of the matter, Government are pleased to pass the following orders -

Proposal.	Order.
Rule 3.- (By the Bangalore City Municipal Council)- The Municipality should not be made to meet the cost of water drawn for watering public roads and flushing drains even at half the cost.	The Municipalities have been treated very generously, as the whole ~~ex~~ cost of the water supply project and the greater portion of the annual maintenance charges are contributed by Government. The Municipalities cannot therefore be exempted from paying at least part of the rate for the water required for watering roads, flushing drains and other such purposes. The rule will therefore stand as it is.
